Items available in retail display packaging are identified with a -1, -2, -3, and -5 after the Sea-Dog part number. More specifically:

-1 Hanging card, bagged with header card, or in a clamshell
-2 Higher quantity display packaging
-3 Full color box
-5 Point of Purchase (POP) display: clear container with set number of that item.

Why are Proposition 65 warnings in our Sea-Dog catalog?

We at Sea-Dog strive to do the right thing as a responsible manufacturer. While no changes have been made to our products that have been in our catalog for years, and even though the Prop 65 label is only a California requirement, Sea-Dog Line, out of an abundance of caution, is labeling all Prop 65 items regardless of their intended destination.

So, as part of California's Right to Know, you will see Prop 65 warnings on some of our product packaging, in our catalog, and on our web site.

Prop 65 was enacted in 1986 for California only. Its intent was to protect drinking water sources from being contaminated with chemicals known to cause cancer, birth defects, or other reproductive harm. Since its inception, it has grown to include approximately 1000 chemicals, many of which are found in common household items.

Labeled products for Sea-Dog predominantly fall into three categories as pertains to Prop 65: Those containing brass, those with a galvanized finish, or those containing PVC. All brass contains lead, as does galvanizing solution. PVC, commonly used in wiring products, contains vinyl chloride. Both of these substances are listed as chemicals known to the state of California to cause cancer or reproductive toxicity.

Merchandising Guide

The key to setting up a profitable and productive retail store environment is to make your customer feel comfortable, let them linger longer, and easily find what they need. Or even better, find what they didn't even know they needed.

Boaters are like every other product consumer – they expect to come into your store to quickly and easily find the products they are looking for. Your challenge is to make this happen quickly and simply, but those things can prove to be easier said than done.

Sea-Dog's award winning merchandising program allows you to offer a greater variety of top selling products that satisfy your customer and increase your profit potential. By offering top quality products at competitive prices, we provide you with clean, neat, and organized displays to provide your customers with a better and more productive shopping experience.

Our Coastal and Inland Spinners provide a broad range of our top-selling items in a compact space, with items clearly displayed on 6" hooks (and every hook has a back tag for that item). Merchandising for profit doesn't have to be expensive. Helping you sell more helps us sell more and we all win.

You can count on Sea-Dog quality, value pricing and POP merchandisers to lead the way to greater profits. Please use this guide or visit our website to see what's available, and call your distributor for more details.
